PROCEDURE

- 1.0 For usage of Purified water, open the valve of user point at maximum flow and allow the water to run for about one minute before taking it for use.
- 2.0 In the locations where hosepipes are connected to user point, use water from the end of hosepipe and allow the water to run for about one minute before taking it for usage.
- 3.0 Connect the hosepipe before usage and disconnect after operation.
- 4.0 Use separate hosepipes for process water and purified water.
- 5.0 Drain the hosepipe and dry after the usage.
- 6.0 Close the both ends with Aluminum foil and preserve until next use.
