

**Installation and Operational Qualification Test Datasheet #03.04 for Infrared Ray Dryer**

<b>Identification No.:</b>	<b>Document Number:</b>
<b>Effective Date:</b>	<b>Revision No.:</b> 00
Test ID : 04	Test Date :
Name of Component : DTC	ID Number :

Parameter	Specification	Actual	Verification method (Visual/Document reference)
Make	Delta		
Model	DTC 1000V		
Serial No.	-		

Acceptance Criteria	Compliance	Document Reference		Comment Ref. No.
	Yes/ No/ NA	Document Name/ Type	Document No. &/ or Location	
Component identified by tagging				
Component as shown on P&ID / drawing				
The component specification available				
The component comply design specification				
Contact part made of inert material and conformation document available Material: _____				
Elastomers used are food grade and conformation document available Material: _____				
Elastomers are replaceable				
Component intact (no damage)				
Measuring instrument (as applicable) calibrated and calibration certificate available				
Component is suitable for cleaning, operation and maintenance				

<b>Checked By (signature / date)</b>	<b>Verified By (signature / date)</b>
