

Installation and Operational Qualification Test Datasheet #03.5 for Infrared Ray Dryer

Identification No.:	Document Number:
----------------------------	-------------------------

Effective Date:	Revision No.: 00
------------------------	-------------------------

Test ID	:	05	Test Date	:	
Name of Component	:	Filter	ID Number	:	

Parameter	Specification	Actual	Verification method (Visual/Document reference)
Make	Airtech		
Media	Non woven synthetic media		
Efficiency of Filter	99.9 % Down to 5 Micron		
Quantity	01 No.		

Acceptance Criteria	Compliance	Document Reference		Comment Ref. No.
	Yes/ No/ NA	Document Name/ Type	Document No. &/ or Location	
Component identified by tagging				
Component as shown on P&ID / drawing				
The component specification available				
The component comply design specification				
Contact part made of inert material and conformation document available Material: _____				
Elastomers used are food grade and conformation document available Material: _____				
Elastomers are replaceable				
Component intact (no damage)				
Measuring instrument (as applicable) calibrated and calibration certificate available				
Component is suitable for cleaning, operation and maintenance				

Checked By (signature / date)	Verified By (signature / date)
